FEATURES &
BENEFITS

○ Convert all your Creo parts and assemblies to native IFC files.

○ Export based on your desired simplified representation and coordinate system to match your customer's project coordinates

○ Supports IFC 2X3 & IFC Zip format

○ Assign default IFC categories to all the Creo parts and assemblies.

○ Obtain non-triangulated solid geometry

○ With the Chord height and angle control options, take ownership of the quality and size of the IFC file generated

○ Transfer all colours and properties as well.

○ Instantiate your parts and maintain the heirarchy.

○ Simplify your models with the user-friendly interface combined with easy operation to assist novice and experienced designers alike.
