

BIMDeX
A Unit of SrinSoft Inc

INVENTOR TO IFC EXPORTER

It is a CAD exchange tool, which converts Inventor models into the IFC files, and avoids remodeling the same building model in various CAD applications

BIM DATA EXCHANGE SOLUTIONS

BIMDeX provides a platform for effortless data exchange between various CAD, Design and BIM softwares. BIF is a global standard for data exchange across various industries

An innovation in BIM industry.

An award winning product providing seamless data integration of BIM softwares with mechanical models.

Key Features and Benefits:

- It exchanges details like Geometry, Parameters, Materials, Element Types etc.
- Can filter the required Components with grouping option to assign the IFC category
- Exports selected components by Level of Detail option
- Provides option to assign the IFC category to all components
- Exports the model with IFC Categories
- Exports complete Model Hierarchy
- Exposes Inventor application in BIM environment
