

BIMDeX
A Unit of SrinSoft Inc

IFC IMPORTER FOR CREO

Expose IFC 2x3 and IFC4 files generated from various CAD/BIM environments into Creo through the BIMDeX customized and safe data exchange platform.

METADATA INFORMATION

All the metadata information from the IFC file will be transferred to Creo

MAINTAIN INSTANCES

BIMDeX instantiates the IFC components inside Creo for ease of editability and facilitates better performance

NO FILE SIZE LIMITATION

There is no file size limitation of the IFC file. Bigger IFC files can be imported.

WIDE RANGE SOFTWARE COMPATIBILITY

IFC files generated from Revit, Inventor, Solidworks, Tekla, SketchUp, ArchiCAD & AutoCAD Architecture are compatible.
