

BIMDeX
A Unit of SrinSoft Inc

IFC IMPORTER FOR INVENTOR

Expose IFC 2x3 and IFC4 files generated from various CAD/BIM environments into Inventor through the BIMDeX customized and safe data exchange platform.

METADATA INFORMATION

All the metadata information from the IFC file will be transferred to Inventor

WIDE RANGE SOFTWARE COMPATIBILITY

IFC files generated from Revit, Creo, Solidworks, Tekla, SketchUp, ArchiCAD & AutoCAD Architecture are compatible.

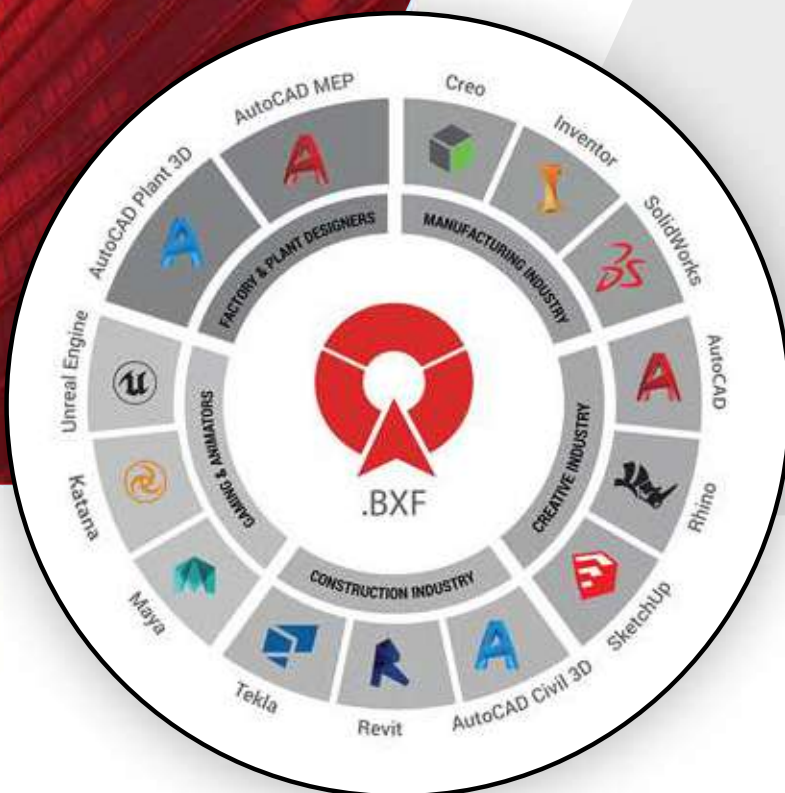

MAINTAIN INSTANCES

BIMDeX instantiates the IFC components inside Inventor for ease of editability and facilitates better performance

NO FILE SIZE LIMITATION

There is no file size limitation of the IFC file. Bigger IFC files can be imported.
